

Capital Campaign Update

Honey's Big Dream is slowly but steadily becoming a reality. This spring, the dog population at the Humane Society of Lebanon County will have new state of the art kennels that they can call home. Turning Honey's Dream into a reality hasn't been without a few bumps. The least of which was the general contractor, Dueck Construction of Myerstown, going out of business half way through the project. At that point, to say that Honey's Dream was looking more like a nightmare was an understatement. But, with adversity comes renewed strength and determination and just four months after our contractor announced he was going out of business, we are putting the final touches on the kennels and making arrangements for our "Grand Opening"!

These new kennels are thanks to the generosity of YOU, our donors. You, who stepped up and saw the need in Lebanon County to help the shelter care for and house these unwanted animals that have nowhere else to go. You, who realized that our 1972 facility could no longer do the job properly. You helped us to start building a facility that not only is a better temporary home for the needy animals of our county but a more inviting building for you, the public, to come to in the hope of finding happy homes for our guests.

But we are only half way there. Not only financially, but with the construction process. Our next step is to use the area that was our old kennels and turn that into a brand new cat adoption area with larger accommodations, better ventilation, cat rooms with sofas HDTV's (well maybe not the TV's). Heck, anything less and we would never hear the end of it from our feline guests!

So, we are again asking for your help. We want nothing more than to start right into Phase 2, but we can't without your continued support. Please come out to the shelter and see what your financial help did for our dog population and know that we are making the same commitment for our cats. Thank you!
